AI-Enabled VA Pitch Templates

Clients do not buy AI. They buy results: time saved, faster replies, better systems.

Part	Formula	Example
Title	Role + niche + tools	AI-Enabled Executive VA | Inbox, CRM and Automations
First line	Who you help and how	I help busy coaches save 10+ hours a week.
Middle	3 results you deliver	Clean inbox, booked calendar, faster lead replies
End	Proof and call to action	See my 2-minute Loom demo. Message me for a free 15-minute audit.

Avoid	Say instead
"I am an AI expert"	"I use AI to draft and organise, and I check every output"
"I can do any task"	One niche and 3 clear results
"I am cheap"	"You can save around 10 hours a week"
Nothing about data	"I only use tools you approve, and no sensitive data goes into AI"

Proof to add

☐ Before and after sample of an email or report
☐ Short Loom video of an automation
☐ Workflow screenshot with no client data
☐ Numbers: hours saved, reply time, tasks done

COPY AND EDIT · VA AT AI EP 4

Proposal and interview templates

Short, personal and focused on the client's result. Only claim what is true for you.

PROPOSAL

Hi [Name], I saw you are spending a lot of time replying to new leads. I can set up a simple system where every new lead gets a personal reply within minutes, and you approve the important ones. Here is a 2-minute Loom of a similar setup: [link]. Happy to start with a small paid trial. Would Tuesday work for a quick call?

INTERVIEW: HOW DO YOU USE AI?

For a weekly report, I pull the numbers into a sheet, ask AI to draft three insights, then I check every number against the source and rewrite anything unclear before sending it to the client.

PROFILE OVERVIEW

I help [niche] owners get hours back every week. I manage your inbox and calendar, keep your CRM clean, and use AI and simple automations to get replies, follow-ups and reports done faster. You get the results, and I check every output.

Before you send

☐ Did you mention their problem from the job post?
☐ Is there one clear idea and one proof link?
☐ Is every number true for you?
☐ Is there a simple next step?
