AI-Proof Skills for VAs

AI-proof does not mean "no AI". It means skills that become more valuable when you use AI.

Level	What you do	How AI affects it
1. Task doer	Data entry, copy-paste	Most affected by AI
2. AI-assisted VA	Uses AI to work faster and better	Start here
3. Systems VA	Writes SOPs, automates repeated tasks	Higher value, fewer manual hours
4. Specialist or partner	Niche expert with judgment, owns results	Highest rates

Self-check: the 4 human skills

☐ Communication: clear emails, updates and calls
☐ Judgment: I can tell when AI output is wrong
☐ Client context: I know the business and its customers
☐ Problem solving: I suggest a fix, not just report the problem

Rules for using AI with client work

☐ Read, fact-check and edit before sending anything
☐ Only use AI tools the client approves for their data
☐ Never paste passwords, card numbers or private customer data
☐ Be honest about how you use AI
☐ You are still responsible for the final output

PROMPT TEMPLATES · VA AT AI EP 2

Prompt templates you can copy

Good prompts have context, a task, a format and an example.

EMAIL REPLY

You are a polite executive assistant. Context: [paste the email]. Task: draft a reply that [goal]. Format: under 120 words, friendly and clear, one next step. Do not invent facts.

MEETING SUMMARY

Summarise these notes for a busy business owner. Format: 3 key decisions, action items with owner and due date, open questions. Notes: [paste]

DATA CLEAN-UP

Here is a list of leads. Fix name capitalisation, put emails in lowercase, flag missing phone numbers and duplicates. Return a table. Data: [paste test data only]

SOP DRAFT

Turn these steps into a simple SOP with a title, purpose, tools needed, numbered steps and a final checklist: [paste your steps]

30-day plan

☐ Week 1: use one AI tool for email and notes
☐ Week 2: build 5 prompt templates
☐ Week 3: write 1 SOP and automate 1 task
☐ Week 4: make a portfolio sample and pick a niche
