FREE CHEAT SHEET · VA 101 EP 34

Google Docs and Sheets for VAs

Almost every client uses them. These are the basics you will use every week.

Share role	Can do	Give it to
Viewer	Read only	People who only need to see it
Commenter	Read and comment	Reviewers, the client
Editor	Change everything	Only people working on it

Docs habits

☐ Use Suggesting mode when editing the client's writing
☐ Comment with @name to ask a question
☐ Use headings so the outline is easy to follow
☐ File, Version history if something gets deleted
☐ Name files clearly: Client - Task - Date

Sharing safely

☐ Keep General access on Restricted for client files
☐ Share with specific emails, not "anyone with the link"
☐ Never move or delete a client file without asking

FORMULAS · VA 101 EP 34

Formulas and clean-up

Clean data is one of the most common VA tasks.

Formula	What it does	Example
TRIM	Removes extra spaces	=TRIM(A2)
PROPER	Makes Name Case	=PROPER(A2)
LOWER	Makes text lowercase (emails)	=LOWER(B2)
&	Joins text	=A2&" "&B2
SPLIT	Splits one cell into many	=SPLIT(A2," ")
COUNTIF	Counts matches	=COUNTIF(D:D,"Sydney")
SUMIF	Adds matches	=SUMIF(D:D,"Paid",E:E)
IF	Yes or no logic	=IF(E2>0,"Paid","Unpaid")
XLOOKUP	Finds a value from another table	=XLOOKUP(A2,Leads!A:A,Leads!C:C)
UNIQUE	Lists values without duplicates	=UNIQUE(A2:A)

Lead list clean-up steps

☐ Make a copy of the original first
☐ Data, Data cleanup, Remove duplicates
☐ TRIM and PROPER the names, LOWER the emails
☐ Use one phone format for every row
☐ Highlight missing or unverified data
☐ Freeze the header row and add a filter
