KISS Proposal Templates (Upwork)

Keep It Short and Simple. Clients read the first two lines in the preview, so make them about the client, not about you.

The 3-part formula

1. Their problem	Repeat what they need in your own words. Use their name if it is in the post.
2. Your proof	One real skill, tool or sample that matches. One link only (portfolio or sample).
3. Easy next step	A simple question or offer: a quick plan, a call, or "Hire me".

GENERAL / ADMIN VA

Hi [Name], you need someone to keep your inbox and calendar organised every day. I can do that.
I manage Gmail labels, replies and Google Calendar bookings (sample: [portfolio link]).
I'm online [hours] your time. Want a quick 3-step plan for your inbox? 😉

DATA ENTRY / RESEARCH

Hi [Name], 500 leads cleaned and ready in Google Sheets by Friday? Done.
I'm fast and careful with data entry and formulas like VLOOKUP and filters (sample sheet: [link]).
Send me the file and I'll start today. Hire me 😉

SOCIAL MEDIA / CANVA

Hi [Name], you want 3 posts a week that look on-brand without you spending hours on it.
I design in Canva and schedule in Meta Business Suite (samples: [link]).
Can I make 1 free sample post from your brand colours? 😉

TECH VA (EXAMPLE: GOHIGHLEVEL)

Hi [Name], your leads need an instant reply and a follow-up so none of them go cold.
I build GHL forms, pipelines and follow-up workflows (sample build: [link]).
Shall we start now? 😉

Use only true skills and real samples. Practice projects are fine, just label them as practice. Light emoji only, one is enough.
