FREE CHECKLIST · VA CHALLENGES EP 1

Dropped by a Client: Your Safety Net

Clients can end a contract at any time, even when your work is good. Prepare before it happens.

Layer	What to build	Target
1. Emergency fund	Savings you do not touch	3 to 6 months of expenses
2. More than one income	A second client or side income	No client above 70% of income
3. Pipeline	Applications every week, even when busy	A few good applications weekly
4. Proof	Testimonials, samples, case studies	Ask after every good result

The 24-hour plan if you get dropped

- ☐ Breathe. Reply politely, never angrily
- ☐ Confirm final hours, invoice and payment date
- ☐ Hand over all files and remove your own access
- ☐ Ask for feedback and a short review if the work was good
- ☐ Update your profile and samples
- ☐ Send new applications the same week

POLITE REPLY

Thank you for the chance to work with you. I will send all files and remove my access today. Please confirm my final hours and invoice. A short review would mean a lot to me. I wish you and the business all the best.

TRACKER · VA CHALLENGES EP 1

Emergency fund and income tracker

Small, regular savings beat a big plan you never start.

Month	Income	Saved	Fund total	Months covered

Keep the client happy while you have one

☐ Send a short weekly update with results
☐ Ask monthly: what else can I help with?
☐ Add a notice period to your agreement, for example 2 weeks
☐ Save something from every payday
